

TODO List Manager on Steroids

User Manual Document

Team 3.09

Overview

The To-Do List application will have the following modules: Login, Create account, Delete account, Task manage, Task and User Sync up functionalities. The web application is deployed at <http://www.sdptaskstodo.appspot.com> and can be directly accessed, though any first time user will have to be little patient since the API takes a little time to load. The corresponding functions on both the web and mobile applications are presented as follows:

1. Login Page

For an existing user, he/she can login with valid username and corresponding password. There are actually two interfaces that we are dealing with. One is for the Mobile users and the other is for the Web users. Both the interfaces are presented below.

WTM:

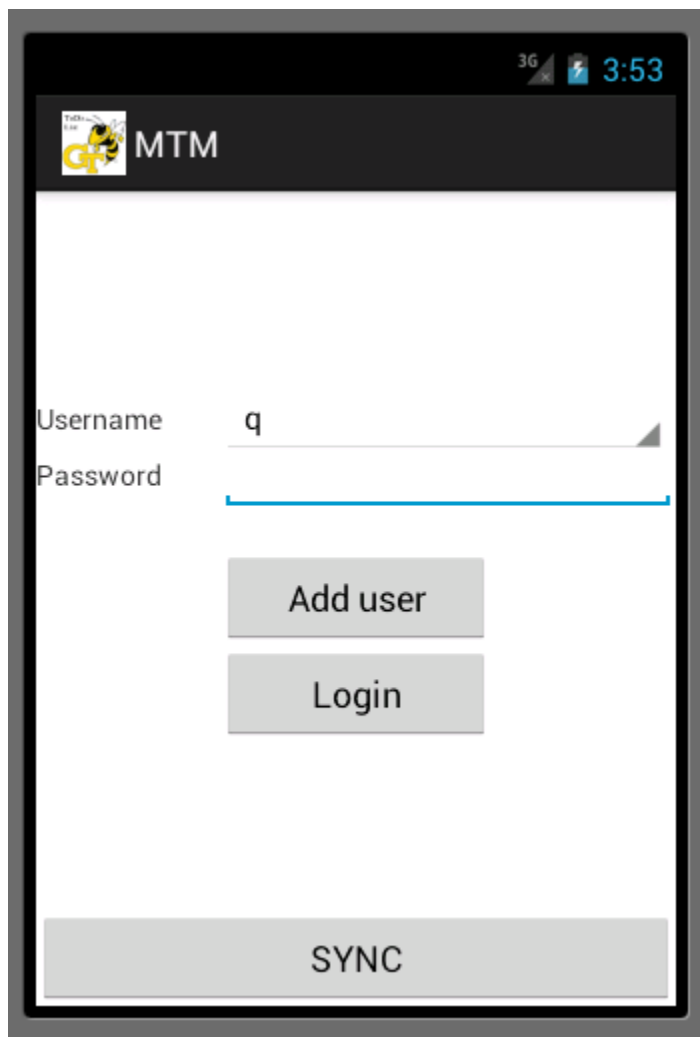

ToDo List Manager

MTM:

The image shows a mobile application interface for MTM. At the top, there is a status bar with '3G' and a battery icon, and a time display of '3:53'. Below the status bar is a header with the MTM logo (a yellow bee) and the text 'MTM'. The main content area has a white background. It contains two input fields: 'Username' with the value 'q' and 'Password' which is empty. Below these fields are two buttons: 'Add user' and 'Login'. At the bottom of the screen is a large grey button labeled 'SYNC'.

2. New User Page

A user who is not registered before can create a new user account by clicking on the “Register” button on top right corner of Login Page. The user will be prompted to give his username, password and confirm password for successful registration. A screen as shown below will be seen when signing in as new user on **WTM**.

The screenshot displays the 'ToDo List Manager' interface. At the top, the title 'ToDo List Manager' is prominently displayed in a large, bold, grey font. Below it, the tagline 'The key to managing your everyday life tasks©' is written in a smaller, italicized black font. The central focus is a light blue rectangular box containing the login and registration options. Inside this box, the text 'User login' is on the left, 'Need an account?' is in the center, and a 'Login' button is on the right. Below these, there are three input fields: the first contains the username 'manika', the second is for a password (masked with dots), and the third is for a confirm password (also masked with dots). At the bottom of the box is a blue button labeled 'Register account'.

MTM:

The screenshot shows a mobile application interface with a dark grey header bar. On the right side of the header, there is a status bar showing '3G', a battery icon, and the time '3:56'. On the left side of the header, there is a small logo featuring a bee and the text 'TadDoo' and 'GT'. The main title of the screen is 'Add New User'. Below the header, there is a large white rectangular area containing three input fields. The first field is labeled 'Username', the second is labeled 'Password', and the third is labeled 'Confirm password'. Each field has a horizontal line indicating where to enter text. Below these fields, there is a grey button with the text 'Add user'. At the bottom of the screen, there is a wide grey bar with the text 'SYNC' in the center.

3. Task Manage Page

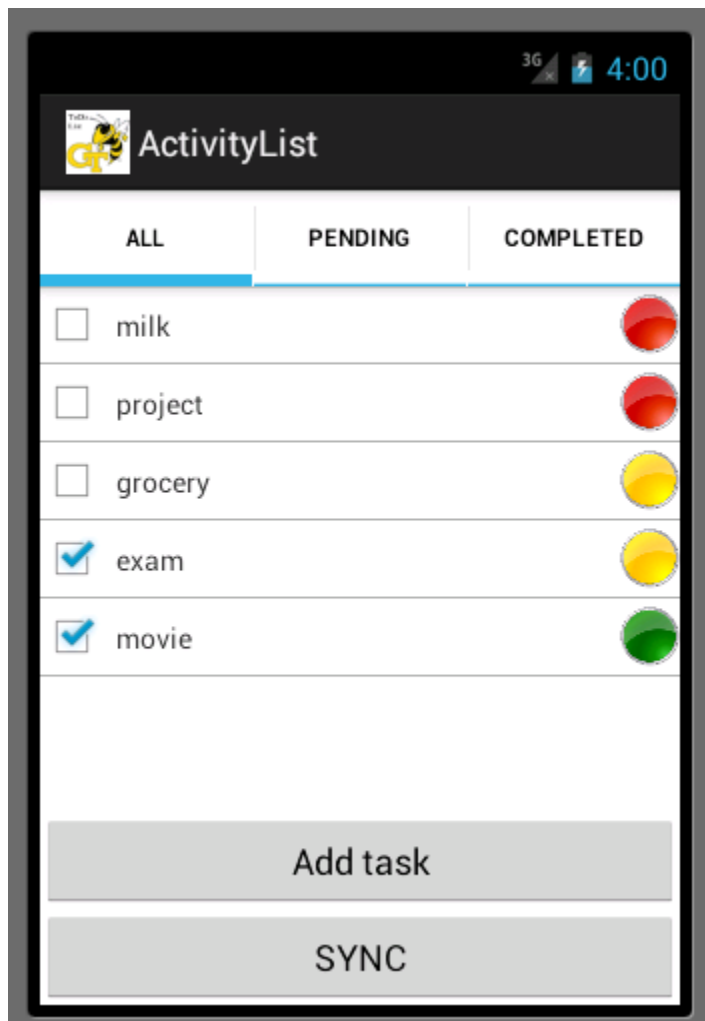

Once having logged in, the user can observe and interact with his task manage page. This page will display a list of tasks that the user has to accomplish, with the task name, due date and priority. The user can select one or more tasks by ticking the checkbox and choose to hide (implicating the task has been accomplished) the selected tasks. The user can also click on a specific task to view and choose from a list of Menu options like “Sort list by date”, “Sort list by priority”, “Delete” and “Edit” the selected item. A new page for adding tasks will appear when the user clicks on the “Add” button.

The priority once set by the user is depicted with the help of a colour scheme, where red shows “high priority” and yellow shows “low priority”.

WTM:

MTM:

4. Add New Task Page

The user can add tasks by clicking on the “Add” button on Task Manage page. The user can specify the name, priority, due date and description of the task. Priority is specified by sliding across a given priority bar with various colours depicting the level of priority set. Due date can be chosen from a calendar.

WTM:

The screenshot displays the 'ToDo List Manager' web application. The main header includes the title 'ToDo List Manager' and the tagline 'The key to managing your everyday life tasks'. On the right, it shows 'Display options: Showing completed tasks' and 'Showing uncompleted tasks', along with a user login status 'Logged in as: manika'. The background shows a list of tasks: 'buy milk', 'find coursebook', 'ddd', and 'go'. A 'Task Details' modal is open in the center, containing the following fields and controls:

- Task Name:** A text input field.
- Task Description:** A text input field.
- Priority:** A dropdown menu currently set to 'normal'.
- Calendar:** A calendar for November 2012, with the 6th selected.
- Time:** Two dropdown menus for hours (set to 0) and minutes (set to 0), followed by an AM/PM selector (set to AM).
- Buttons:** 'Done' and 'Cancel' buttons at the bottom.

MTM:

The screenshot shows a mobile application interface for adding a new task. At the top, the status bar displays '3G', a battery icon, and the time '4:03'. The app's header is dark grey with a logo on the left and the title 'Add New Item' in white. Below the header, the form has a white background. It includes a 'Task name' label and a text input field containing 'name'. Below that is a 'Note' label and a text input field containing 'note'. A checkbox labeled 'Set due time?' is present and is currently unchecked. Further down is a 'Priority' label and a horizontal slider control with a blue circular knob positioned at the left end. At the bottom of the form are three buttons: 'Cancel' and 'Save' are side-by-side, and a wider 'SYNC' button is centered below them.

5. Edit Task Page

The user can edit task details for any task by clicking on the specified task in the Task Manage page. The user can edit and change the name, priority, due date and description of the task. Priority is specified by sliding across a given priority bar with various colours depicting the level of priority set. Due date can be chosen from a calendar. The task will get saved automatically once the user make changes to any of the details in the below dialog box.
