

# TODO List Manager on Steroids

## User Manual Document

### Team 3.09

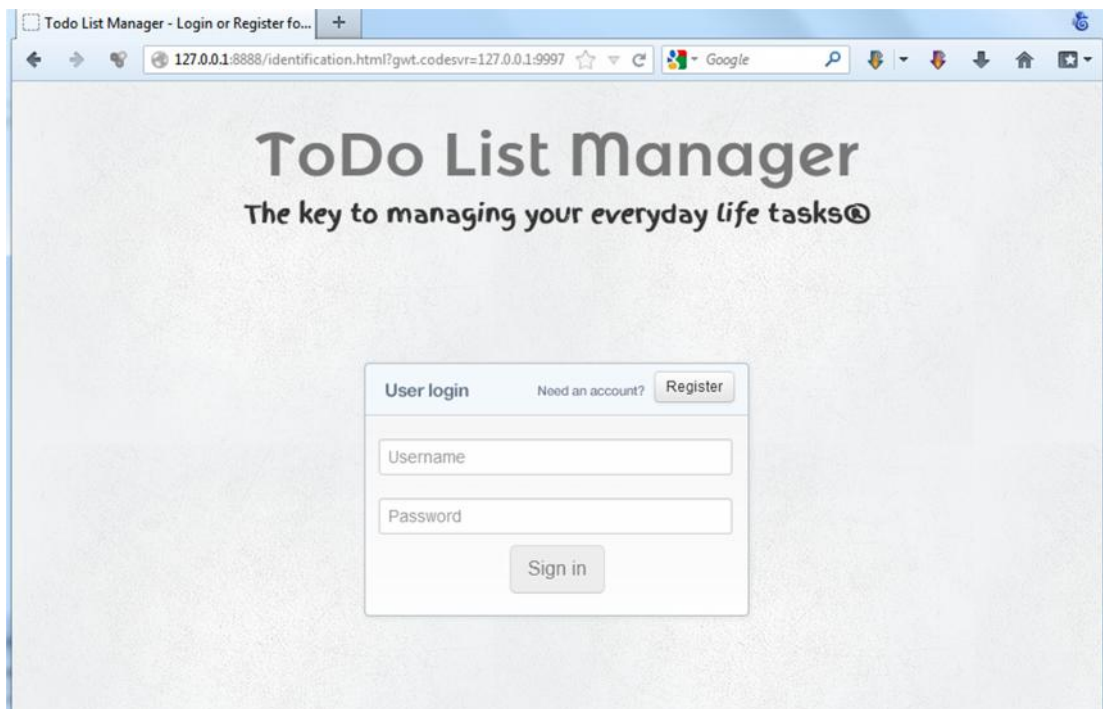

## Overview

The To-Do List application will have the following modules: Login, Create account, Delete account, Task manage, Task and User Sync up functionalities. The corresponding functions for these modules are presented as follows:

## Login Page

For an existing user, he/she can login with valid username and corresponding password. There are actually two interfaces that we are dealing with. One is for the Mobile users and the other is for the Web users. Both the interfaces are presented below.

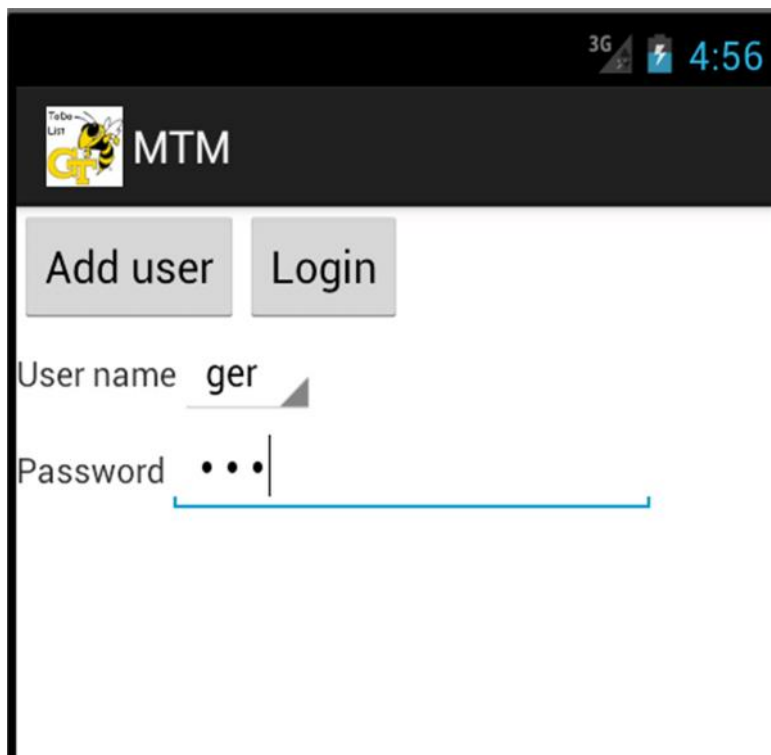

**WTM:**

The screenshot shows a web browser window with the title "Todo List Manager - Login or Register fo...". The address bar displays "127.0.0.1:8888/identification.html?gwt.codesvr=127.0.0.1:9997". The page content features the title "ToDo List Manager" and the tagline "The key to managing your everyday life tasks®". Below this, there is a login form with the following elements:

- A tab labeled "User login" with a link "Need an account?" and a "Register" button.
- A text input field for "Username".
- A text input field for "Password".
- A "Sign in" button.

**MTM:**

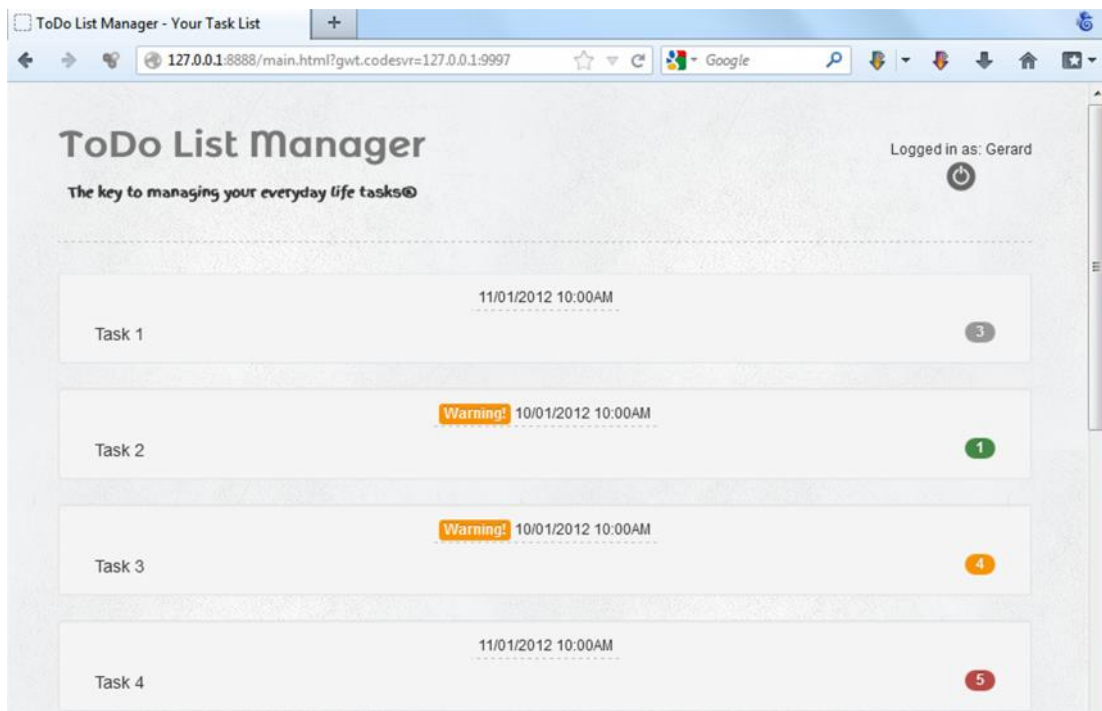

The screenshot shows a mobile application interface for 'MTM'. At the top, there is a status bar with '3G' signal, a battery icon, and the time '4:56'. Below the status bar is a header with a logo on the left and the text 'MTM' on the right. The logo features a yellow bee and the text 'Task List' and 'GT'. Below the header, there are two buttons: 'Add user' and 'Login'. Under these buttons, there are two input fields. The first is labeled 'User name' and contains the text 'ger'. The second is labeled 'Password' and contains three dots, indicating a masked password. A blue underline is visible under the password field.

## Task Manage Page

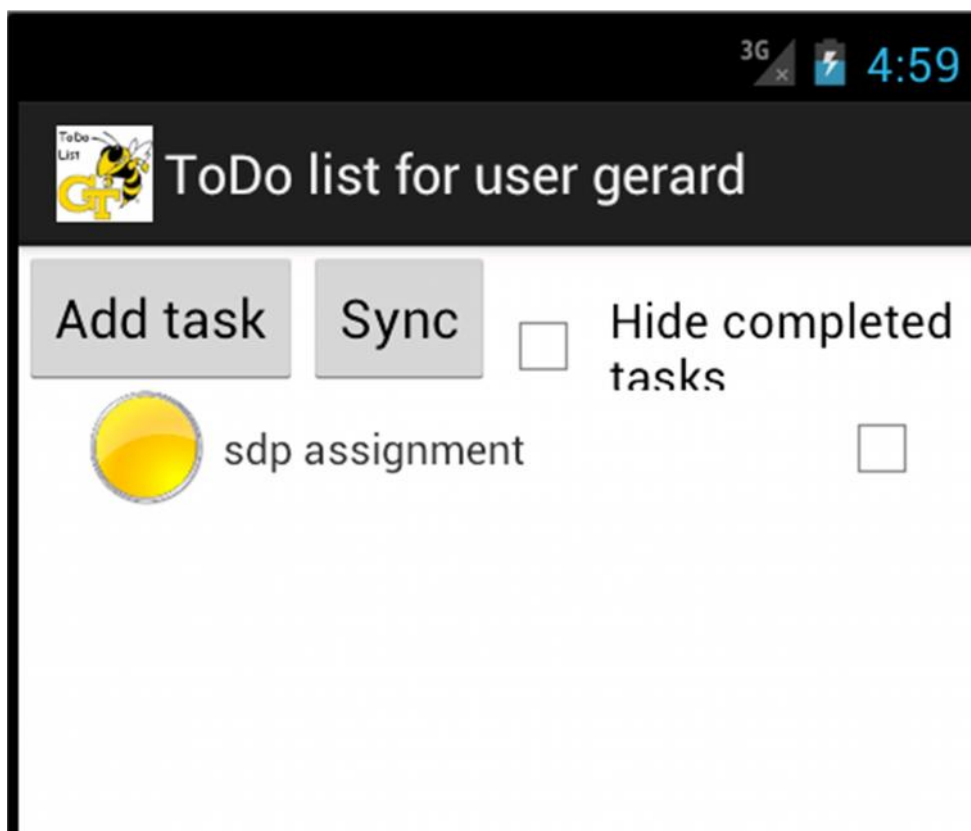

Once having logged in, the user can observe and interact with his task manage page. This page will display a list of tasks that the user has to accomplish, with the task name, due date and priority. The user can select one or more tasks by ticking the checkbox and choose to hide (implicating the task has been accomplished) the selected tasks. The user can also click on a specific task to view and choose from a list of Menu options like "Sort list by date", "Sort list by priority", "Delete" and "Edit" the selected item. A new page for adding tasks will appear when the user clicks on the "Add" button.

The priority once set by the user is depicted with the help of a colour scheme, where red shows "high priority", yellow shows "medium priority" and green shows "low priority".

## MTM:

## Add New Items Page

The user can add tasks by clicking on the “Add” button on Task Manage page. The user can specify the name, priority, due date and description of the task. Priority is specified by sliding across a given priority bar with various colours depicting the level of priority set. Due date can be chosen from a calendar.

The screenshot shows a mobile application interface for adding a new task. At the top, there is a status bar with '3G', a battery icon, and the time '4:58'. Below this is a dark header bar with a logo on the left and the title 'Add New Item' in white. The main content area is white and contains the following elements: a text input field for 'Task name' with the value 'sdp assignment' and a red underline; a text input field for 'Note' with the value 'note'; a checkbox labeled 'Set due time?' which is currently unchecked; a 'Priority' section with a horizontal slider bar and a blue circular knob; and two buttons at the bottom, 'Cancel' and 'Save', both in grey.

This screen is still not available for the web interface yet.
